- ◆ More than 200 staff and volunteers from the network were equipped in effective practices to serve clients facing unexpected pregnancies, helping women heal from past abortions, develop adoption plans, reach the fathers of the babies and more.

- ◆ Development of "new" life ministries, raising a greater awareness to the network, and other communication efforts resulted in engaging communities all across Missouri in the culture for life.
- ◆ Collaboration with network affiliates resulting in 25 service locations providing the Alternatives to Abortion (ATA) program of the state of Missouri, to more than 1,200 women and babies.
- ◆ Fatherhood education/mentoring programs meant nearly 700 fathers of babies had opportunity to become equipped to support their families.
